Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 16th July 1960

Special Notice

The following Group of Abridgments of Patents Specifications has been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1 per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta on cash payment.

Group XXXVII —Printing, typewriting.

(Containing Abridgments of
Patent Specifications between
Nos. 35,001 and 40,000).

CORRIGENDA

(1)

In the Gazette of India, Part III, Section 2 dated 2nd April 1960—

In Page 96, Column 2, under the heading "Printed Specifications Published"—

In Group (3)—

for No. "61347", read No. "61349".

(2)

In the Gazette of India, Part III, Section 2, dated 9th April 1960—

In page 103, Column 1, under the heading "Printed Specification Published"—

In Group (2)—

for No. "61156" read No. "61153".

(3)

In the Gazette of India, Part III, Section 2, dated 16th April 1960—

In page 108, Column 2, under the heading "Patents Sealed"—

for No. "65599" read No. "65499".

In page 109, Column 1, under the heading "Renewal Fees Paid"—

for No. "69005" read No. "59005".

(4)

In the Gazette of India, Part III, Section 2, dated 23rd April 1960—

In page 112, Column 1, under the heading "Application for Patents"—

Against No. 71407—

for "Hunter Dougals International Corporation"
read "Hunter Douglas International Corporation".

J318GI

(5)

In the Gazette of India, Part III, Section 2, dated 30th April 1960—

In page 120, Column 1, under the heading "Application for Patents"—

for "(27th August 1958)"

read "(28th August 1958)".

In page 125, Column 1, under the heading "Registration of Designs"—

Against Class 13, Nos. "103114 to 103116"—

for "January 1960" read "January 15, 1960".

(6)

In the Gazette of India, Part III, Section 2, dated 7th May 1960—

In page 128, Column 1, under the heading "Application for Patents"—

Against No. 71549—

for "[26th November 1959]" read "[Divisional date 26th November 1959]."

Against No. 71552—

for "[24th June 1959]" read "[Divisional date 24th June 1959]."

Against No. 71553—

for "[26th November 1959]" read "[Divisional date 26th November 1959]."

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

30th June 1960

72425. Council of Scientific and Industrial Research. A direct process for preparing the chlorides of barium and strontium from their sulphate minerals.

72426. Automatic Telephone & Electric Company Limited. Improvements in or relating to mounting arrangements for electrical apparatus. (10th July 1959).

72427. N. P. Kinariwala. Modification and improvement in/or relating to mechanical warp stop motion used in textile industries.

72428. Shell Internationale Research Maatschappij N.V. Process for the production of blown asphaltic bitumen by the continuous counter-current blowing of a petroleum distillation residue in a blowing column and blowing column for carrying out such a process.

72429. The Ruberoid Company Limited. Roof structure. (7th July 1959).

72430. The Ruberoid Company Limited. Roof structure. (7th July 1959).
72431. J. R. Geigy A. G. Process for the production of dyestuffs.
72432. The Dow Chemical Company. Method of making carbonyl compounds.
72433. Glaxo Laboratories Limited. Chemical process. (8th July 1959).
72434. Road Machines (Drayton) Limited. Improvements in or relating to engine powered wheelbarrows. 1st July 1960
72435. Bristol-Myers Company. Chemical process.
72436. The British Iron and Steel Research Association. Improvements in or relating to positioning systems.
72437. The Wellcome Foundation Limited. 2, 4-diamino-5, 6-dialkylamino-pyrido (2, 3-d) pyrimidines and method (25th June 1958). [Divisional date 5th May 1959].
72438. D. P. Asar. An improved cleaning and washing device.
72439. Siemens-Schuckertwerke Aktiengesellschaft. A process for heat-treating a rod of semi-conductor material.
72440. Ciba Limited. Process for the manufacture of new esters.
72441. Associated Electrical Industries Limited. Improvements in and relating to supervising circuits for selsyn systems. (2nd July 1959).
72442. Knorr-Bremse G.m.b.H. Driver's brake valve for rail vehicles equipped with vacuum brakes.
72443. Knorr-Bremse G.m.b.H. Combined driver's brake valves for compressed air and vacuum brakes. 2nd July 1960
72444. Council of Scientific and Industrial Research. Antimony-free white enamels.
72445. Capt. A. N. D' Silva. Device for self-regulation of ink-level in ink-pots.
72446. L. S. Perez. Multi-frame single yarn sizing machine.
72447. Deba Prasad Basu. Improvements in or relating to weaving machines.
72448. May & Baker Limited. Improvements in or relating to organic compounds of therapeutic value.
72449. Dunlop Rubber Company Limited. Ejector device for dies.
72450. Westinghouse Brake & Single Company Limited. Improvements relating to vacuum brake cylinders for vehicle brakes. (14th July 1959).
72451. Westinghouse Brake & Single Company Limited. Improvements in and relating to valve devices for fluid pressure braking apparatus. (28th July 1959).
72452. C. C. D. Processes Limited. Method of extracting protein and lipid from raw vegetable materials. (8th July 1959). [Addition to No. 65366].
72453. Werner Schoppmeyer, Dipl.-Chem. Manufacture of water vapour and fat-moisture-proof packing material.
72454. American Cyanamid Company. Improved tetracycline antibiotic compositions.
72455. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process of vulcanization of saturated amorphous polymers and copolymers of alpha olefins with each other and/or ethylene.
72456. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to semi-conductor electrode systems having at least one aluminium-containing electrode.
72457. Wilmot-Breeden Limited. Door fastenings. (3rd July 1959).
72458. Landmaster Limited. Improvements relating to agricultural machinery. (3rd July 1959).
72459. Ciba Limited. Process for modifying oxygen-containing fibers.
72460. Beecham Research Laboratories Limited. Improvements in or relating to basic esters. (15th July 1959).
- 4th July 1960
72461. P. Runchhoddas. Improvements in or relating to spinning wheels, gears wheels, anti-ballooning, cord tension, jockey pulleys.
72462. R. R. Pardasani. Improvements in or relating to bottle or container covers.
72463. U. Y. Kalgutkar. An improved wick-regulator for oil stoves.
72464. Associated Electrical Industries Limited. Improved braking circuit arrangement for electric motors. (13th July 1959).
72465. Olin Mathieson Chemical Corporation. Process for producing chlorine dioxide.
72466. Mayor & Coulson Limited. Improvement in loading machines used in coal mines, quarries and other works.
72467. Arbed Acieries Reunies de Burbach-Eich-Dudelange, Societe Anonyme. Converters for steel manufacture.
72468. British Industrial Plastics Limited. Improvements in or relating to the manufacture of polyoxymethylenes.
72469. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process and device for modifying and determining the 'optimum' volume of the operating reaction chamber in ovens for the production of acetylene from hydrocarbons.
72470. Svenska Aktiebolaget Broomsregulator. Improvements in or relating to automatic, single-acting brake slack adjusters.
72471. Boots Pure Drug Company Limited. Anthelmintic agents. (23rd July 1959).
72472. The Metal Box Company Limited. Improvements in or relating to carton-closing machines. (7th August 1959).
72473. LEPETIT S.p.A. Production of rifomycin. (20th July 1959).
72474. The Gabriel Company. Valve mechanism. 6th July 1960
72475. J. Beffinger. Improvements in or relating to processing of tobacco. (13th July 1959).
72476. Westinghouse Brake & Signal Company Limited. Improvements relating to electromagnetic braking apparatus. (31st July 1959).
72477. Imperial Chemical Industries Limited. Organohalogenosilanes. (31st July 1959).
72478. Glaxo Laboratories Limited. Vaccine. [Divisional date 4th November 1958].
72479. Abbott Laboratories. Improvements in or relating to madicament.
72480. Abbott Laboratories. Improvement in or relating to madicament.
72481. Abbott Laboratories. Improvement in or relating to madicament.
72482. J. R. Geigy A.-G. Process for the dyeing of plastics.
72483. P. P. Gohil. An improved device for transferring yarn from one sleeve to another.
72484. Veb Erste Maschinenfabrik Karl-Marx-Stadt. Roller mangle with stationary centre roller and flexibly bedded outer rollers.
72485. "OFU" Ofenbau-Union Gesellschaft mit beschränkter Haftung. Process and apparatus for the production of town gas from liquefied gas.
72486. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Crystalline copolymers and process for preparing them.
72487. N. V. Philips Gloeilampenfabrieken. Method of producing preparations which are suited for combating worm infections containing phenazine derivatives.
72488. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to alloying-jigs for alloying contacts to semi-conductor bodies.
72489. Standard Telephones and Cables Limited. Improvements in or relating to carrier current communication systems incorporating repeaters. (9th July 1959).

72490. Massey-Ferguson Inc. Improved machine for forming hay and like fibrous agricultural crops into pellets.
72491. Cooper, McDougall & Robertson Limited. Chemical composition (9th July 1959).
72492. Associated Electrical Industries Limited. Improvements relating to apparatus for measuring radiation produced in nuclear reactors. (9th July 1959).
72493. The Plessey Company Limited. Improvements in or relating to composite mechanical drives. (10th July 1959).
72494. J. Handley. Improvements in or relating to type printing telegraph apparatus. [Divisional date 30th April 1959].
72495. Food Machinery and Chemical Corporation. Process for manufacture of hydrogen peroxide.

Alteration of Date

66807. The claim to priority date 27th February 1958 has been disallowed and the application dated as of 21st February 1959, the date of filing in India.
71480. Ante-dated to 3rd February 1959, under Section 5 of the Act.

Applications accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

65447. Mrs. Madhuri Mitra. Plaster of paris bandage or casts for surgical purposes. Accepted on 4th July 1960.

Comprising a fabric coated with a slurry composition comprising plaster of paris, a synthetic resin which is non-soluble and non-swellable in water, a plasticiser and a wetting agent for the resin, an anhydrous solvent and potash alum.

65637. Maschinenfabrik Augsburg-Nurnberg A.G. Improvements in or relating to diesel engines. Accepted on 2nd July 1960.

A duct connecting intake and exhaust systems is controlled by a variable valve allowing return of exhaust gases is controlled quantity to intake system.

65844. British Titan Products Company Limited. Vapour phase oxidation. (20th November 1957). Accepted on 4th July 1960.

A halide vapour which reacts exothermically with oxygen, or oxygen containing gas is reacted with such gas in an empty chamber.

66374. Woodall-Duckham Construction Company Limited. Improvements in or relating to the control of coal carbonizing installations. (9th January 1958). Accepted on 4th July 1960.

Comprising a control station including a transmitter to inject a high frequency signal into the electrical power supply mains for a machine which is equipped with a receiver associated with the power supply.

66618. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of a polyene aldehyde. Accepted on 6th July 1960.

An acetal of 2-methyl penten-(2)-yn-(4)-al-(1) is condensed with 8-[2, 6, 6-trimethyl-cyclohexan-(1)-yl]-2, 6-dimethyl-octatrien-(2, 4, 6)-al-(1), then reacted with acid and then with a vinyl alkyl ether.

66721. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Improvements in or relating to a feed for birds. Accepted on 1st July 1960.

Poultry feed admixed with alkyl ester of 17-[2, 6, 6-trimethyl-cyclohexene-(1)-yl]-2,6, 11, 15-tetramethyl-heptadeca-octaen-(2, 4, 6, 8, 10, 12, 14, 16)-oic-(1) acid as an additive.

66748. Imperial Chemical Industries Limited. New azo dyestuffs. (5th March 1958). Accepted on 6th July 1960.

Reacting diamine with mono (dihalogeno-5-triazine azo compound.

66763. Rohm & Haas Company. Process for the esterification of pentaerythritols or polypentaerythritols and products produced by such process. Accepted on 1st July 1960.

Heating pentaerythritol with fatty acid until hydroxyl number is not more than 5, heating the mixture thereafter to 120—260°C at reduced pressure in presence of activated carbon.

66803. Council of Scientific and Industrial Research. Improvements in or relating to the manufacture of pressure sensitive adhesive tapes. Accepted on 2nd July 1960.

Comprising the application of two consecutive coats namely, an anchor coat and a 'sticky coat' on one side of a tape base, the anchor coat consisting of rubber latex, polyvinyl alcohol and a surface active agent.

66807. Svenska Rotor Maskiner Aktiebolag. Rotor device. Accepted on 2nd July 1960.

In a lower pressure stage the lands of the female section are provided with addendum portions outside the profile of the lands of adjacent female section.

66816. The Standard Oil Company. Process for the manufacture of unsaturated aliphatic nitriles. Accepted on 6th July 1960.

Reacting olefin, ammonia and oxygen at elevated temperature with oxidation catalyst consisting of at least one of bismuth, tin and antimony salts of molybdic acid, phosphomolybdic acid and phosphotungstic acid.

66818. Ciba Limited. New dyestuff derivatives, process for their manufacture, process for dyeing textile materials with said dyestuff derivatives and dyed textile material. Accepted on 6th July 1960.

Reacting water-soluble organic dyestuff having substituent capable of reacting with alkylol groups with resin pre-condensate with alkylol group.

66827. Consolidated Electronics Industries Corp. Electric motor. (21st April 1958). Accepted on 30th June 1960.

Comprising a rotor having a coil energizable by a source of electrical power, a commutator connected to coil and rotatable with rotor about an axis.

67065. Imperial Chemical Industries Limited. New mono-azo dyestuffs. (26th March 1958). Accepted on 2nd July 1960.

Condensing with monoazo compound, a 4:6-dihalogeno-5-triazine containing alkoxy or aryloxy group attached to 2-carbon atom of triazine ring.

67189. E. A. Raylon. A solder for soldering aluminium and its alloys. Accepted on 4th July 1960.

Solder alloy comprising zinc from 21—50%, lead from .5 to 4.5%, and tin from 76 to 95%.

67214. The Associated Cement Companies Ltd. A machine for packing a powdery material such as cement. Accepted on 30th June 1960.

Means for imparting vibratory motion to the bag along the axis of material dropping into the bag and a discharging device.

67241. Union Carbide Corporation. A method of polymerizing alpha olefins and catalyst system used therein. (18th February 1959). Accepted on 30th June 1960.

Contacting α -olefins with catalytic composition of organo-aluminium compound and transition metal trihalide of particle size of less than 2 microns.

67308. Bristol Laboratories Inc. 6-trifluoromethyl-7-sulfamyl-3-substituted-1, 2, 4-benzothiadiazine-1, 1-dioxide compounds and method of preparation thereof. Accepted on 1st July 1960.
Reacting 2, 4-disulfamyl-5-trifluoromethylamine compound with carbonyl reactant.
67309. W. F. DePenning. Vibratory rollers for compacting soil and other materials. Accepted on 2nd July 1960.
Comprising a roller body rotatable with respect to a tube which is eccentric or carries eccentric masses and through which extends an axle carried at its ends by mountings resilient by connected to a casing on which is mounted a motor for rotating the said tube.
67404. Oil Seed Products, Inc. Process of obtaining the proteinaceous feed material from mustard seed, rape seed and similar seeds. Accepted on 1st July 1960.
Treating mustard and rape seed after oil extraction with water and raising the temperature to 45–55°C maintaining the mixture at this temperature for sufficient time to produce complete hydrolysis of thioglucosides, removing sulphur containing compounds by steam stripping, and then screening, pressing and drying.
67416. Chairman, Khadi and Village Industries Commission. A process of chemical treatment of paddy to replace parboiling of paddy. Accepted on 6th July 1960.
Treating with aq. solution urea or alkali-thiocyanate or mixture thereof.
67569. Board of Supervisors of Louisiana State University and Agricultural and Mechanical College. Process and apparatus for separating mixtures of coarse and fine materials. Accepted on 2nd July 1960.
The apparatus including a longitudinally elongated housing having an inlet at one end, a rotor extending longitudinally through the housing a screen in the lower portion of the housing and hammers on said rotor.
67626. James Finlay & Company Limited. Improvements in or relating to trolleys of the type used in the withering of tea leaf by the tunnel method. [Addition to No. 63114]. Accepted on 2nd July 1960.
Its chassis has its right side half 'off-set' in relation to its left side half, so that two adjacent trolleys may overlap and interlock with each other.
67704. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to a method of manufacturing a magnet core for use as a memory element in electronic computers and magnet cores manufactured by this method. Accepted on 4th July 1960.
Presintering at a temp. between 500°C a mixture of Fe_2O_3 , MnO , CuO and ZnO , moulding it into the form of a ring, sintering it in oxygen-containing gas atmosphere by heating at a temp. between 1150°C to 1350°C and cooling the same so that at least temp. range from 700°C to room temperature and at the most temperature range from 1050°C to room temperature is traversed rapidly.
67894. National Malleable and Steel Castings Company. A rotor shaft member for a railway bar coupler and a coupler equipped therewith. Accepted on 4th July 1960.
A shank portion an eye portion defined by a plurality of walls forming an eye opening for receiving an end of an associated operating rod therein.
67913. F. L. Smidth & Co. A/S. Manufacture of white cement. (5th June 1958). Accepted on 30th June 1960.
Treating cement clinker where rotary kiln with reducing agent separating coloured from white clinker and returning it to kiln in or before burning zone.
67940. Frankische Isolierrohr-Und Metallwaren Werke. Method of and apparatus for making a transversely grooved flexible pipe of plastic material. Accepted on 4th July 1960.
The outside of the pipe-wall, while still in soft condition, is pressed in all directions against a ridge-and-groove forming matrix by a pressure fluid acting from the pipe interior until it assumes the desired shape.
67983. Shubhabrata Raymahasay. A process for the manufacture of 2-methyl-2-n propyl-1:3-propane diol dicarbamate. Accepted on 6th July 1960.
Reacting urea with 2-methyl-2-n-propyl-1:3-propane diol.
67996. Chas. Pfizer & Co., Inc. Therapeutic composition and method of preparing same. Accepted on 1st July 1960.
Dissolving magnesium calcium or aluminium tetracycline salt in glycerine, polyethylene glycol, or propylene glycol.
68023. Celanese Corporation of America. Stabilization of formaldehyde solutions. Accepted on 2nd July 1960.
Containing dissolved colloid as stabilizer.
68078. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of dibenzazepine compounds. Accepted on 2nd July 1960.
Reacting an amine with diphenyl-di-aldehyde and reducing the product.
68154. Rohm & Haas Company. Textile material and the method of treatment thereof. Accepted on 1st July 1960.
Treating textile material with di(2-hydroxy alkyl) sulfoxo compounds.
68156. Ilford Limited. Diazacarbocyanines. (25th June 1958). Accepted on 6th July 1960.
Quaternising a diazacarbocyanine base.
68227. Escher Wyss Aktiengesellschaft. Device for discharging solid matter from the centrifugal drum of a continuously operating centrifuge. Accepted on 2nd July 1960.
Comprises a trough arranged radially outward of the delivery end of the centrifugal drum, the trough having bed just large enough for receiving the stream of solid matter.
68233. Preparation Industrielle Des Combustibles. Improved device for opening and closing the discharge doors of guided skips. Accepted on 4th July 1960.
Rollers belonging to skip engages ramps, so that during skips end of travel rollers travel in relation with the skip, causing movement of main ramp piston actuating a door handling ram piston.
68381. Chas. Pfizer & Co., Inc. Recovery of amphoteric penicillins. Accepted on 2nd July 1960.
Treating fermentation broth with carbobenzoxy chloride acidifying resulting mixture, extracting with a solvent, separating organic phase, recovering carbobenzoxy derivative therefrom catalytically hydrogenating in presence of noble metal and recovering amphoteric penicillin therefrom.
68436. The British Drug Houses Limited. Process for the preparation of 17 α -hydroxy-6 α -methyl-16-methylene-pregn-4-ene-3,20-dione and acyl derivatives derived therefrom. (25th July 1958). Accepted on 6th July 1960.
3- β -hydroxy-6, 16-dimethylpregna-5, 16-dien-20-one is oxidised by oppenauer procedure, the product reacted with alkaline H_2O_2 to give 16, 17-epoxide which is treated with a hydrogen halide followed by treatment with Raney Nickel.
68515. Ciba Limited. Epoxidized hydroaromatic acetals and process for their manufacture. Accepted on 6th July 1960.
Epoxidising an acetal containing two epoxidisable $C=C$ double bonds.
68525. B. Sareen. An improved cock handle for water taps or the like. Accepted on 4th July 1960.
Comprising an inner core of brass or gunmetal and which is covered or coated with a few layers of porcelain, plastic or the like.

68661. The Goodyear Tire & Rubber Company. Improvements in preparation of cis 1, 4-polyisoprene. Accepted on 2nd July 1960.

Polymerising isoprene in presence of a catalyst comprising a hydrocarbon-insoluble reaction product of aluminium alkyl and titanium tetrachloride.

68753. Marshall's Tea Machinery Company Limited. Improvements in tea rolling apparatus. Accepted on 2nd July 1960.

Comprising two plates each having a roughened surface arranged with their roughened surfaces facing one another and a small gap between them; means for imparting an eccentric motion to one of the plates and means for feeding the leaves continuously into the space.

68778. VEB Filmfabrik Agfa Wolfen. Process for the manufacture of polycarbonates. Accepted on 1st July 1960.

Treating dihydroxydiphenyl compound with phosgene in presence of mono-dicarboxylic acid or a salt thereof.

68860. Molybdenum Corporation of America. Improvements in iron and steel production. Accepted on 2nd July 1960.

Preparing an iron containing melt and incorporating a complex rare earth metal salt the rare earth metal having an atomic number ranging from 57—71.

68946. H. Kosaka. Tester for testing tension of tapes on jockey pulleys used in textile machinery. Accepted on 4th July 1960.

Comprising a pair of independently mounted angular bodies, the free ends of the corresponding arms of the two bodies being connected to each other, the other arms forming the movable arms.

69020. Schering Aktiengesellschaft. Weedkillers. (5th March 1959). Accepted on 2nd July 1960.

Comprising herbicidally active phenoxy alkanoic acid or its salts and a water-soluble salt of a phosphoric acid.

71480. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of a polyene aldehyde, (28th August 1958). [Divisional date 3rd February 1959]. Accepted on 6th July 1960.

By condensing an acetal of 2-methyl-penten-(2)-yn-(4)-al-(1) in a metal organic reaction with 8-[2', 6', 6'-trimethyl-cyclohexene-(1')-yl-2, 6 dimethyl-Octadien-(2, 4, 6)-al-(1) and then treating with acid.
